Your files can be accepted through secure FTP upload, on CD or copy package - whatever works best for you! Comprehensive, internet based, fully interactive management reporting is available along with customized reporting.

### MARS (Mortgage Analysis Review Software)

QMS also offers a highly sophisticated compliance computer application that was developed to aid in the extensive mortgage review process.

MARS (Mortgage Analysis Review Software) is a proprietary, web-based quality assurance application. It's not a checklist - rather it promotes critical, analytical thinking. It's used by QMS auditors and is also available for lease or purchase - customer branding is available. And should you decide to either lease or purchase MARS, data continuity and transfers are assured.

### Get on the right track!

QMS brings to the table a comprehensive collection of services coupled with a staff that is both tenured and professional. Their collective experience and knowledge will keep you on the right track, even in the midst of an ever-changing industry that sometimes changes with new laws, trends and philosophies.

Cutting edge technology combined with approachable staff that consistently deliver accurate and timely results - that's the kind of mortgage compliance and quality control service that you need. That's what you're looking for and that's Quality Mortgage Services!
